

EVERYBODY ON ONE SMALL DISK!

Our webmaster John Howard Somsen has made another brilliant achievement. During the USA reunion he presented a CD-rom entitled:

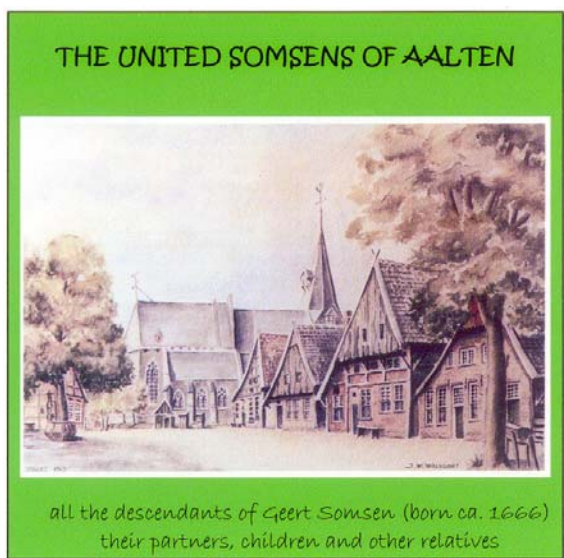

The United Somsens of Aalten.

A playful title with a definite wink at the United States of America.

On this disk there is an awful lot of information about the Somsen family. The front and the backside of this CD-rom show that really every family member is on it. Besides, this disk contains hundreds of pictures and stories, often new, but sometimes already published before in our family magazine or our family book. It's a real pleasure having the whole family tree and the family history within arm's reach!

At the reunion the disks were sold out in less than no time, but they can still be ordered.

De price of the CD is \$ 15 (shipping included).

CD-cover: front

If you are interested in ordering one or more CD-roms (it is also a very nice present) please contact: *Theo Somsen*. Then he will see to it that you will get *The United Somsens of Aalten*.
